Distribution of Netflix Stock Prices in 2017

Netflix Stock and Revenue for Past 4 Quarters

Both revenue and earnings follow an increasing trend during 2017. Revenue in the second quarter of 2017 was 2.79 billion dollars and grew to 3.7 billion dollars by the first quarter of 2018.

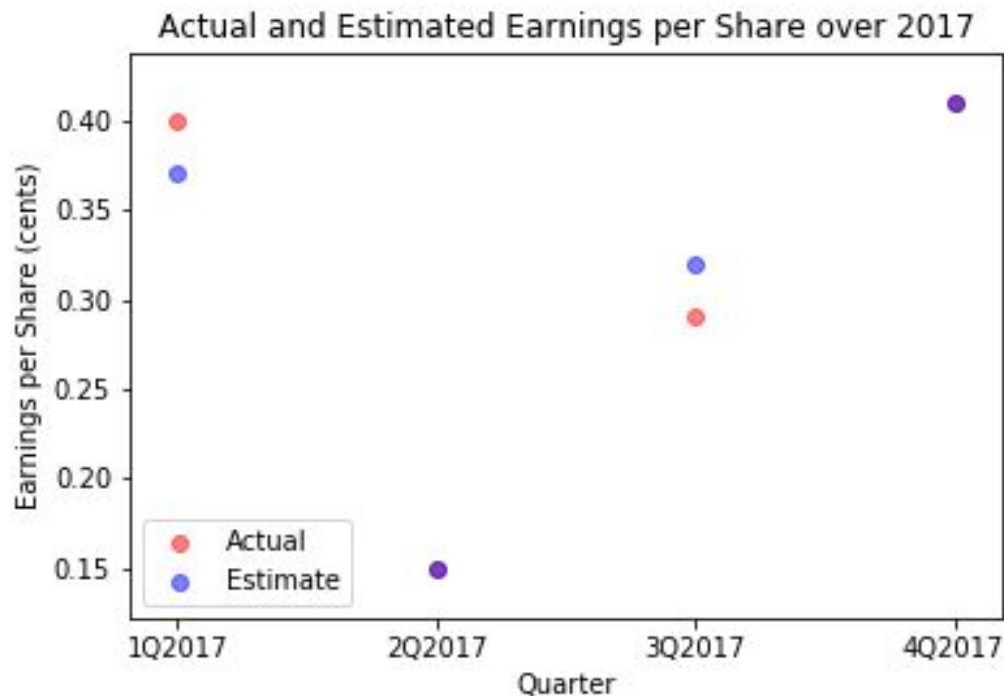

The earnings constitute approximately 3-4% of the revenue.

Earned vs. Actual Earnings per Share

The estimated earnings per share were high, low, and exact, they did not all drift in any direction.

The purple dots display the quarters where the actual and estimate earnings were equivalent.
